E-Signatures in iStar Reference Guide

Last Updated: 8/30/22

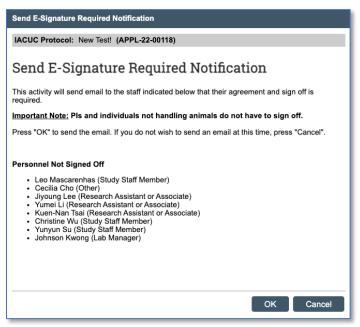

E-Signatures in iStar are used to capture the personnel's agreement to participate in IACUC Protocols or IBC BUAs. <u>Since the PI is already agreeing to the PI Assurances when they submit</u> <u>the application, they do not need to run the **Agree to Participate** activity.</u> However, the PI cannot submit the application till all the required personnel who needs to sign off have done so. The **Send E-Signature Required Notification** activity is used to send out notifications to the personnel who have not signed off to assist in the process.

Send E-Signature Required Notification activity

By default, no notifications would be sent to the personnel informing them their e-signature is required unless the **Send E-Signature Required Notification** activity is run. The reason for this is to minimize the amount of system emails that gets sent and provide to the PI or anybody specified as personnel as much control as possible.

It is recommended that the activity be run at least once in the beginning when most of the application is completed to inform the personnel that need to look at the application and provide their e-signature. Afterwards, the activity can run as many times as necessary to email the remaining individuals who have not signed off.

The person running the activity will get CC'd in the email notification.

Send E-Signature Required Notification activity for IACUC

Agree to Participate activity

The **Agree to Participate** activity is how personnel agrees to the duties expected of them by being in an IACUC protocol or IBC BUA. Depending on the committee, there might be additional items that needs to be completed when personnel run this activity.

For **USC IACUC**, all personnel handling animals with the exception of the PI in New Submissions and Third Year Renewals must **Agree to Participate**. In addition, personnel would need to provide a 24 Hour Contact Number that is different from their office number.

Agree to Participate						
IACUC Protocol: New Test! (APP	PL-22-00118)					
Agree to Participat	ie					
24 Hour Contact Number						
Should we need to get ahold of file:	of you urgently, please provide/verify the 24 Hour Contact Number on					
* 24 Hour Contact Number:	123-456-7890					
By participating in this protocol, I accept responsibility for the following: I will read, understand, and strictly follow the procedures of the final version of this protocol as written in iStar and as approved by the IACUC; I will ensure that I am adequately trained and will seek additional appropriate training as needed in order to fulfill my role in this protocol and in order to work with animals humanely; In the event that animals in this study experience pain or distress which cannot be adequately relieved, I will euthanize those animals immediately based on recommendations of the Animal Resources veterinary staff or IACUC; I have reviewed and agree to abide by all institutional policies governing the use of vertebrate animals for research, testing, teaching or demonstration purposes at USC (policies can be found at dar.usc.edu); I agree to abide by the Guide for the Care and Use of Laboratory Animals, the USDAAnimal Welfare Regulations (CFR 2011), and Public Health Service Policy on Humane Care and Use of Laboratory Animals; I certify that I have read and agreed to the foregoing statements and that my submission of this application has the same force and effect as my written signature.

Agree to Participate activity for IACUC

For all IBC applications, all personnel will need to **Agree to** Participate with the exception of the <u>PI.</u>

For **USC IBC**, personnel would also need to provide a response of whether they will adhere to the Emergency Response Operations Plan.

Researchers tab

The **Researchers** tab is convenient way to figure out what individuals need to sign off and haven't done so. It also contains information about a person's training, as well as their contact information and roles/responsibilities in the study. For IACUC, animal handling information is also displayed.

For IACUC, there is a **Researchers** tab under the **Summary Box** that contains information of all personnel that is in the application. Within this section, there is a column for **Sign Off Status** that shows whether an e-signature was provided. The information in the **Researchers** tab can also be found in the **Personnel** section of the application. A **Researchers** tab in the IBC workspace will be available in Fall 2022.
